SUPPLEMENTARY INFORMATION: The ICR seeks to maintain PRA authorization for the MSHA hazardous conditions complaint information collection. Federal Mine Safety and Health Act of 1977, as amended (Mine Act) section 103(g)—30 U.S.C. 813(g)—provides that a representative of miners, or any individual miner where there is no representative of miners, may submit to the MSHA a written or oral notification of an alleged Mine Act or mandatory health or safety standard violation or of an imminent danger. The person making the notification also has the right to obtain an immediate MSHA inspection. A copy of the notice must be provided to the operator, with individual miner names redacted. Regulations 30 CFR part 43 implements Mine Act section 103(g). These regulations provide the procedures for submitting a complaint and the actions the MSHA must take after receiving the notice.

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by the OMB under

the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6. The DOL obtains OMB approval for this information collection under Control Number 1219-0014.

OMB authorization for an ICR cannot be for more than three (3) years without renewal, and the current approval for this collection is scheduled to expire on January 31, 2014. The DOL seeks to extend PRA authorization for this information collection for three (3) more years, without any change to existing requirements. The DOL also notes that existing information collection requirements submitted to the OMB receive a month-to-month extension while they undergo review. For additional substantive information about this ICR, see the related notice published in the Federal Register on August 21, 2013 (78 FR 51748).

Interested parties are encouraged to send comments to the OMB, Office of Information and Regulatory Affairs at the address shown in the ADDRESSES section within 30 days of publication of this notice in the Federal Register. In order to help ensure appropriate consideration, comments should mention OMB Control Number 1219-0014. The OMB is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
